Customizable tracked ▲ UV from ASV

ASV's ST-50 is standard with rubber tracks, Posi-Track suspended undercarriage for increased traction and flotation and ROPS. The 50-horsepower UV has a 5,000-pound towing capacity and a 4,000-pound carrying capacity on the rear deck, and most tools and attachments can be mounted on the deck. The UV comes in general purpose, turf (smooth) or extreme terrain track options. For more information write **119** on Reader Service Card.

Save on fuel with electric ▲ compact utility vehicle

Club Car's new line of electric low speed vehicles (LSV) eliminates fuel costs and reduces operating costs. Recognized as street legal in several states, the Carryall LSV line gives users more accessibility to jobsites. With a maximum speed between 20 and 25 miles per hour, the Carryall line features cab enclosures, safety belts and lighting packages with headlights, turn signals and back-up lights. For more information write **120** on Reader Service Card.
