• *This is what your history books left out.*

- If you're looking for a place to ride that is rich in history, plastered with beautiful backdrops, and downright fun, Black Hills, South Dakota may have more to offer than you think. This fall we spent a week in the breathtaking town of Black Hills and did some first-hand historic sight seeing, all by way of Side X Side. We'll take you through some of the parts of South Dakota you won't find on any road map or guided tour, unless of course you're driving with us.
