

# The Carryall 2 Electric With IQ Plus.

**LEADING THE CHARGE IN ELECTRIC.**

- 21 peak horsepower
- Faster top speed
- 80 miles on a single charge

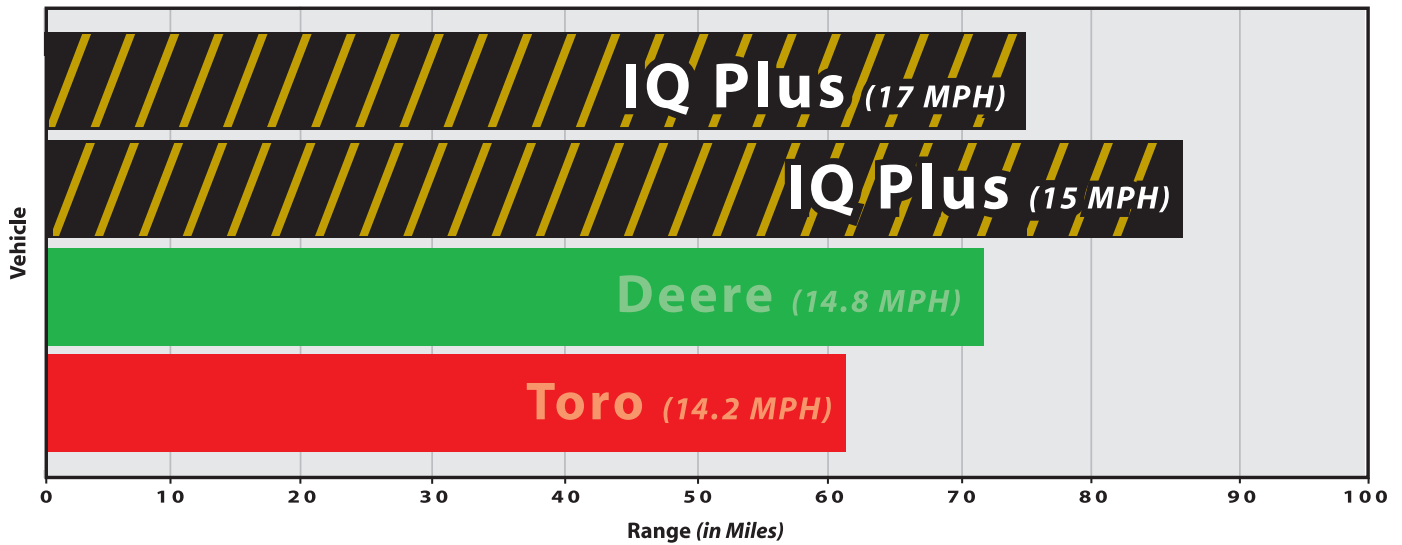

**Club Car**

DRIVE IT ONCE AND YOU'LL KNOW.™

# Outruns, Outclimbs and Outperforms the Competition.

**BEST-IN-MARKET RANGE. FASTER TOP SPEED.**

**Leading the Charge.** With IQ Plus you get 500 amps of power for 3.7 continuous horsepower and a staggering 21 peak horsepower that allows a faster top speed of 17 mph. With all that energy, it's no wonder Club Car electric vehicles offer best-in-market range, hill-climbing, speed and load-carrying capabilities.

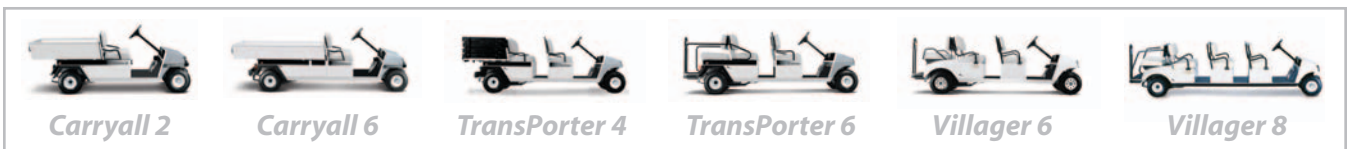

**Do Not Disturb.** With zero emissions, Club Car electric vehicles offer a quieter, cleaner alternative to gas without sacrificing performance. So you can work anywhere, anytime without disturbing your surroundings. Something both your customers and the environment can appreciate.

**Go Out Early. Stay Out Late.** You shouldn't have to plan your day around the life of a battery. With the IQ Plus system, you don't have to. The high-output charger, controller, on-board computer and eight 6-volt battery system charges faster so it can run up to 80 miles on a single charge, providing superior power and range.

**The Control Is In Your Hands.** With IQ Plus, you can customize top speed, acceleration and motor braking to ensure optimal performance. Automated diagnostics make it easy to monitor vehicle performance and pinpoint trouble areas. And with an optional SmartKey system, you can quickly change performance settings without any additional tools or hassle. For more details, contact your Club Car sales rep or your local dealer.
