XRT850

WANT A POWERFUL, COMPACT UTV FOR CAMPING, HUNTING OR CRUISING YOUR LAND?

**POWER UP! NOW
WITH A 14 HP-RATED
SUBARU EFI ENGINE.**

Drive the XRT850. It has more ground clearance and larger tires than the XRT800, so it performs well on rougher terrain and on the beach. Yet this compact two-wheel drive vehicle fits in to the back of a standard pickup truck or a crowded garage.

Available in electric or gas, the XRT850 offers endless possibilities, making it a favorite among men and women. You can cruise the neighborhood in the morning, skim the beach in the afternoon ... take it hunting one day, camping the next, to the race track on the weekend. And it makes doing chores around your property a breeze, so you can knock out your honey-do list in no time.

This versatile vehicle won't bust your budget, and it's covered by the one of the best warranties in the industry. With an XRT850, you can:

- **Go almost anywhere.** Select a 14 hp-rated (10 kW-rated) Subaru single-cylinder overhead cam engine with electronic fuel injection (EFI) or a quiet, environmentally friendly 48-volt electric drive system. Both are equipped with 22 in (559 mm) off-road tires and front and rear leaf spring suspension with dual hydraulic shocks for a smooth, comfortable ride.
- **Carry lots of cargo.** Choose from a fold-down, rear-facing two-passenger seat that converts into a small flat bed or a powder-coated aluminum cargo box with 150 lb (68 kg) capacity.
- **Enjoy years of usage and a high resale value.** The XRT850 is built on a rustproof, non-corrosive aircraft quality aluminum frame. It's equipped with a deluxe brush guard as well as a standard rear differential guard. And the front and rear bodies are made of a durable, impact-resistant plastic.
- **Stay safe and comfortable.** The XRT850 features creature comforts such as a roomy bench seat, a comfort-grip steering wheel and cup holders. Its halogen headlights, self-adjusting rear drum brakes and reverse warning buzzer help keep you and your family safe and secure.

JUST LOOK AT THESE BENEFITS!

- Rustproof twin I-beam welded aluminum frame for long life and good resale value.
- Choose a 14-hp-rated (10.4 kW), 404 cc Subaru single-cylinder overhead cam engine with electronic fuel injection (EFI) that boosts both power and fuel efficiency or a quiet, environmentally friendly 48-volt electric system with six 8-volt PowerDrive batteries.
- Your choice of a fixed aluminum cargo box or a fold-down rear-facing two-passenger seat that converts into a carrying bed.
- A deluxe brush guard and stout bumper to protect the body as well as a rear differential guard, all at no additional charge.
- A spacious bench seat with ample leg room as well as cup holders and a sport steering wheel for added comfort.
- A 5.5-gal fuel tank for hours of driving pleasure.
- 22 in (559 mm) tires for driving on the beach or off road.
- Safety features such as halogen headlights and reverse-warning buzzer.
- A 48-volt, 13-amp battery charger and low-battery warning light (electric models).
- A great selection of options and accessories, including a canopy top, windshield, fold-down rear seat and custom colors.
- One of the best consumer warranties in the industry.
